

# GREAT LAKES PETROLEUM

SERVICE ♦ VALUE ♦ TECHNOLOGY

*Experience Counts. Here at Great Lakes Petroleum, we are committed to being proactive, ensuring safe and environmentally friendly fuel storage. Our experienced full time, in-house compliance and safety team takes pride in practicing preventative measures providing comprehensive compliance for your projects.*

## SAFETY, COMPLIANCE AND ENVIRONMENTALLY PROACTIVE

### EQUIPMENT COMPLIANCE

- ♦ We ensure your tank is fitted with proper equipment meeting your specific regulatory requirements
- ♦ Great Lakes takes pride in maintaining and testing our equipment

### FIRE SAFETY AND HAZARDOUS MATERIALS COMPLIANCE

- ♦ Our experienced in-house specialists understand fire safety codes
- ♦ We help ensure your project meets fire safety requirements by working with local and state authorities

### ENVIRONMENTAL COMPLIANCE

- ♦ Great Lakes helps to ensure your projects meet local, state and federal laws regulating fuel storage
- ♦ We coordinate securing required permits and registrations for your project
- ♦ Great Lakes can develop Spill Prevention Plans (SPCC) for your site or project
- ♦ We can also provide site planning to determine best placement for your fuel storage tank

### FLEET SAFETY

- ♦ Great Lakes takes proactive measures to ensure our customers and employees are protected and OSHA compliant
- ♦ We follow Best Management Practices to reduce risk of spills and accidents to protect your company

### EMERGENCY RESPONSE

Great Lakes Petroleum is proactive in spill prevention with a zero spill tolerance policy. However, in the event there is a spill, we are prepared.

***We partner with companies that specialize in post incident containment and clean-up:***

- ♦ Hazmat
- ♦ Chemtrec
- ♦ Cert
- ♦ Stat
